

SECRETARY HOUSTON ENJOYED HIS TRIP

THROUGH SOUTH CAROLINA IN AN AUTOMOBILE WITH PARTY

PROF. W. W. LONG

Talked Interestingly of the Tour to Representative of Intelligencer Yesterday.

Among the interesting visitors at the centennial celebration at Pendleton yesterday was Mr. W. W. Long, state agent and director of the extension work of Clemson College. Mr. Long talked very interestingly of Mr. David F. Houston, secretary of the United States department of agriculture and of his trip through South Carolina. During the past week Mr. Houston, Mr. Long and Mr. Bradford Knapp, Mr. Houston's secretary, toured certain sections of this state in an automobile.

"We left Florence last Thursday morning and spent that night with Mr. David B. Coker of Hartsville," stated Mr. Long. "The next day we went to Dovesville country school. Secretary Houston taught when he was only 17 years old. He met all of his old pupils who are now living in the community and also visited the family which he boarded. Mr. Houston remembered all of them perfectly and the people were very much gratified in having him visit them. From Hartsville we went to Sumter and then to Columbia. We spent Sunday there visiting Congressman Lever.

"On Monday we went to Rock Hill, then on to Spartanburg. From there we went to Clemson college, reaching there Tuesday afternoon.

The secretary was greatly pleased with what he saw and as intimated in his speech here today, was most optimistic in regard to the agricultural conditions in South Carolina. One of the most encouraging signs in the change of our agriculture was the tremendous amounts of forage crops we saw, especially hay. I must say, however, that we were disappointed at not seeing a greater amount of hay in Anderson county. While I appreciate the fact that Anderson county has grown a great deal of hay this year, yet when we compare the amount grown in Anderson with some of the counties of the state, it does not make the showing that I expected. This was also true of livestock. We saw less livestock in Anderson county than in any of the other counties. I told Mr. Houston what Anderson county had been devoting its activities to the growing exclusively of cotton and corn and that in the growing of cotton there was not a better county in the state. I trust that when he returns, that we can show a greater diversification of crops in the county. Mr. Houston remarked as we were traveling through Anderson county that this county could grow anything."

After Mr. Houston's address yesterday, he went to Clemson college with President Riggs. He took Southern train No. 33 yesterday afternoon for Washington, D. C.

ANNOUNCE OFFICIALS FOR CLEMSON-AUBURN

ALL WILL BE EXPERT MEN AND WILL KNOW THEIR BUSINESS

WILL BE FAST GAME

Both Teams Have Championship Possibilities and Will Do Best to Win Honors.

It was announced yesterday that the men who would officiate in the Clemson-Auburn football game at Beana Vista park Saturday afternoon would all be experts and that as far as this matter is concerned there could be no kick coming. They are: Referee, Wahoo from Carlisle; Umpire, Bowen, from Army; Head linesman, Graham, Davidson.

Coach Williams of Clemson stated yesterday that the game Saturday would be between teams of championship possibilities and that they were fast putting the finishing touches on the Clemson machine.

"Clemson upset the southern dope last Saturday by outplaying the University of Tennessee," stated Mr. Williams. "This was done on the university's home field and is causing the coaches of the different teams which she plays to spend many sleepless nights. This victory over Tennessee is not the result of a spasmodic outburst of football but shows what can be done by a college team when all of the members of the team work together and who set their heads to have the best organization possible."

"LUCY" HAIRSTON

Left Halfback on Auburn Team.

Coach Williams has been at Clemson for several years and this is a great asset to the team. When a college retains a coach for several years, and lets him get acquainted with the boys and the conditions under which they labor, it is always certain that he can then put the better team on the field.

Florida's close score with Auburn shows to every critic mind that this year will have many contestants for championship honors.

It is certain that the game in Anderson Saturday will be one of the most important and hardest fought of this season.

GOVERNOR MANNING SPENT NIGHT HERE

DISCUSSES SITUATION IN CHARLESTON A LITTLE

LEAVES TODAY

The Governor Will Retire to Columbia This Morning—State Hospital for Insane.

Governor Richard I. Manning arrived in the city last evening at 8 o'clock and spent the night at the Hotel Chiquola. The governor came here from Pendleton where he delivered an address yesterday afternoon. He leaves this morning at 8:15 over the Piedmont & Northern for Greenwood and will go directly to Columbia.

Governor Manning was interviewed last night by a representative of the Intelligencer and the chief executive of the state had some interesting things to say. Especially was this true in the case of conditions in Charleston and the result of the precautions taken by the governor in ordering out three companies of the state militia and having appointed special constables to keep order during the day.

"I am very much gratified that the Charleston election has passed off quietly and that neither the militia or the special constables had to be used. The militia have been released and the constables have been discharged.

"I received notice that 13 more blind tigers plead guilty in Charleston. This makes a total of 27 who have entered this plea during this term of court. There were 48 true bills returned. It is very gratifying to me to see the growth of sentiment in Charleston of the regard for law, and especially regarding the enforcement of the liquor law, which has steadily improved. Over 50,000 bottles of beer have just recently been seized and confiscated by the officers."

Governor Manning was asked about the conditions at the state hospital for the insane and he stated that everything was getting magnificently. "We are well pleased with some changes that have been made there recently and some that are now in progress. The hospital has been changed from a place where the mentally afflicted are given what alienists call 'custodial care' into a hospital where they received treatment for their mental diseases as well as their bodily ailments," stated the governor.

The 47 washwomen who used to work there have been done away with and now this work is being done by the negro inmates who are able to do it. This has been beneficial to them and at the same time will mean a saving of approximately \$7,000 a year to the state. This work affords a diversion for the negro inmates and is certainly proving beneficial. Most of the negroes have been removed to the state park with the object of segregation. A new kitchen has been put in so that the food may be better prepared for the patients.

"Records of the patient committed while he is under observation in the receiving ward is typewritten," continued Gov. Manning. "Within a week or 10 days after he enters the receiving ward, the patient is taken to a meeting of the entire medical staff meetings are held every morning in the week, except Sunday. At the meeting all the information obtained by the doctor who had the patient in charge in the receiving ward is laid before the staff of physicians. Dr. W. C. Sandy, medical director of the state hospital, presides over these meetings. After discussion of the patient's case, a tentative diagnosis is made, and an outline of the treatment to be given him for his mental disease is drawn up. The patient is then assigned to the ward in the state hospital where other patients with the same form of mental disease are undergoing treatment."

Five people have been added to the staff of white male attendants who have charge of the white male patients in the state hospital, which makes the total number of white male attendants 37," concluded Mr. Manning. Likewise, five young women have been added to the staff of nurses in charge of white female patients, raising the total number of white female nurses now employed to 55. The additions to the staff of attendants and nurses were made to insure the giving of adequate attention to patients. The number of nurses on attendants will be increased again if the number of patients committed to the state hospital continues to increase."

Governor Manning stated that he was well pleased with conditions in this sector, and that he had had a pleasant day at Pendleton.

A letter that is interesting to buyers of millinery. Its from The Rawak Corporation and "Rawak" as you know, is one of the most exclusive Millinery Manufacturers in America. We are very much pleased over the fact that hereafter The Rawak Corporation will confine their line to us

The RAWAK CORPORATION

48 West 38th Street
NEW YORK

The Moore-Wilson Company
Anderson, South Carolina.

October 1, 1915.

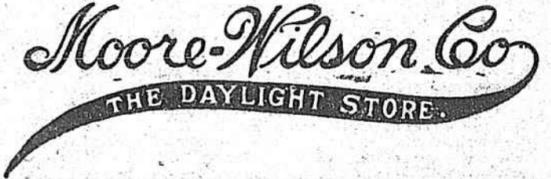

Dear Sirs:—

Replying to your letter of September 29th desire to inform you that we will confine our line exclusively to you in Anderson.

Trusting to have the pleasure of seeing you on your next visit to New York, we are,

Very truly yours,
The Rawak Corporation,
Geo. Rawak, President.

We'll have another shipment of these high-class hats this week. In the meantime you'll find many delightfully pretty untrimmed shapes from Gage and other good houses. Your millinery bought here is of course always bought right

THE RED ROSE COMES HERE NEXT FRIDAY

Wonderful Musical Comedy and Popular Scenic Production is Headed for Anderson.

The engagement of "The Red Rose" which has been looked forward to with the keenest interest, is the attraction at The Anderson theatre on Friday evening, October 22, the same day that the circus is coming.

No musical comedy ever produced in America comes to Anderson with a record equal to this production into which John C. Fisher has put every resource of success within his command. It is a story of French origin and is told in three acts, the locale being in and about Paris of the present period. Harry B. and Robert B. Smith wrote the book and lyrics. Their ideas were "La Tosca Rouge," incorporated in an adaptation of the French farce by George Barr and Marcel Guillemand, the best known farceurs of contemporary life in the gay metropolis.

Developing with the story and merging itself into the weave of the tale is the score of Robert Hood Bowers, who composed the music for "Peggy From Paris," "The Esco Maid," "The Spring Maid," and whose successes have made his name well known in this country. In this, his latest work, Mr. Bowers has outstripped himself and turned out music to that to which the world has danced and danced for the past two years.

In order to bring out the full charm of this delightful score the theatre orchestra will be augmented by that carried by the company in presenting the piece in this city. A company of fifty-four will be seen in the musical comedy for the local engagement including such well known principals as Marguerite De Von, Maurice Darcy, Donald Archer, Nellie Wagner, George C. Hall, Robert LaLonde, Marie Hebold, Polly Merrill, Fred Herndon and Hal Paul, together with a singing and dancing chorus of the type which first made John C. Fisher famous when he produced world-famous "Florodora."

THE WONDERFUL

SILENT Knight

The Greatest Surprise In the Automobile Market

PRICE \$1095.00

Call and See It

The Willys Knight, is beyond the reach of competition. There is no car on the market, embodying all the advantages, of this Knight.

Without doubt, the Knight Motor is the coming motor in automobile construction.

Today the leading cars, in all foreign countries, are Knight Motored.

It is economical because it utilizes all the energy of the gas, therefore, giving from ten to fifteen per cent more mileage on gasoline.

The flow of oil, is automatically regulated, and so perfectly distributed, it uses but one third, to one half as much oil.

It is simple, requires no adjustments. There is no grinding of valves, no weakening of springs, to require re-tuning, no clashing parts to cause rapid wear.

It is more powerful, delivers more power than a Six Cylinder.

It is quiet in operation—not even the humming of gears.
